

Product Specifications

VC100RW
VOLUME CONTROL

Description:

The VC100RW is specifically designed for outdoor applications, featuring a specially designed sealed weatherproof enclosure, and is ideally suited for use with landscaping “rock” speakers and other outdoor systems. The VC100RW is a radial-type volume control, the VC100RW can handle up to 100 Watts per channel and up to 8 pairs of speakers. Making easy work of managing the output level of speakers in distributed audio systems such as whole-house audio, Destination Audio volume controls feature impedance-matching circuitry to present an acceptable load and help extend the life of your amplifier. Designed for performance, the pop-free 12-step level reduction offers clean volume level control for 4 and/or 8 Ohm speakers. This impedance matching volume control can be used with your existing stereo receiver to distribute music throughout your entire home. Jumpers on the volume controls can be adjusted to compensate for the number of speakers used in your system. The volume control also includes removable wire terminals.

Applications:

- Two-channel Audio
- Multi-room Audio
- Patios, Pools, Spas, Hot Tubs, Etc.
- Outdoor Audio

Technical Information:

Model Number: VC100RW

Power Handling: 40 Watts Continuous
(100 Watts Maximum)

Frequency Response: 25Hz–20kHz

Minimum Speaker Impedance: 4 Ohms

Attenuation: 12 Positions Slider (Including “Off”)

Wiring Requirements: 14-16 Gauge Wire
(Input and Output (separate)): Two separate two-conductor speaker wires, or one four-conductor speaker wire.

Impedance Multiplication: 1x, 2x, 4x, 8x and 16x

Unit Dimensions: 3.875” W x 5” H x 4” D
(99mm W x 127mm H x 102mm D)

Faceplate Dimensions: 3” W x 4.75” H
(76mm W x 121mm H)

Colors: Gray (includes housing)

Warranty: 1 Year Limited Warranty

The VC100RW Impedance matching rotary-type exterior/outdoor volume control which can handle up to 100 Watts per channel and manage up to 16 pairs of speakers.
